What is our task now?
Which seeds planted early
have now grown and
blossomed? What new
seeds have been sown
more recently?

Come and listen open-heartedly to the responses of others in a small group, and learn much from each other. All of us will engage with poetry, song, drawing, and journaling and thereby create an enriching community experience which can strengthen us as we gradually all move closer to the threshold.

Your sliding scale donation of \$10 or more at the door will help cover expenses and also benefit the Christian Community.

Please pre-register, either in person or at pkgierlach@gmail.com, to help me with my planning. Thank you.
